

METROPOLITAN NEUROLOGY CLINIC -- PHYSICIAN ORDER

Clinical Requisition for Outpatient Diagnostic Neuroimaging

Patient Name: Ahmed Ali (Age 45, Gender: Male)
Date of Birth: 1981-03-14
Ordering Physician: Dr. Hala Mansour, MD -- Board Certified Neurologist
Physician NPI: NPI-1982736451 | State License: ME-88319
Requested Service: MRI Brain Without Contrast
CPT Procedure Code: 70551 (Magnetic Resonance Imaging Brain)
Primary ICD-10 Diagnosis: G44.209 (Tension-type headache, unspecified, intractable)
Secondary ICD-10 Diagnosis: R51.9 (Headache, unspecified, chronic daily)

Clinical Order Rationale:

Patient presents with progressive daily frontal-occipital headaches lasting greater than 6 weeks. Pain intensity is worsening (rated 6-7/10). Failed outpatient conservative oral NSAID regimen. Requesting non-contrast brain MRI to rule out intracranial mass lesion or structural etiology.

Physician Electronic Signature: Dr. Hala Mansour, MD (Signed 2026-08-20 09:45 AM EST)
